

This index covers Technical Forum articles in the Alpine Horn from about 2008, when Steve Werrell asked me to write articles based on advice given on the SAOC Technical Forum. Some pieces are just one paragraph; others are more comprehensive - up to three pages.
Chris Barker November 2015.

WSM

Ch	Horn	Page	Subject	Content
A	207	8	Water pump Electric Fan	Rebuild
A	212	9	installation	American Tiger cooling experimental findings
B	183	36	Engine pulley oil seal	Removing and refitting
B	189	14	Crankshaft pulley Cylinder head water	Warning about poor spares. Damper function
B	193	34	jet	Drawing
B	195	12	Dipstick length	The clue is in the title
B	196	9	Cylinder head gaskets	Types. Fitting. Torque, Crow's-foot spanner
B	197	11	Cylinder head gaskets Pushrods and valve	Right way to fit
B	199	17	springs	Possible coil-bound springs
B	200	7	Exhaust manifold Connecting rod nuts	Colour
B	202	5	and bolts	Size, replacement
B	202	4	Rear core plug	Replacement
B	205	4	Engine earth Cylinder head water	Strap locations
B	207	9	tapping	Thread size
B	208	5	Tappet clearances	Effect on hot starting
B	210		Engine block colours	Late blocks were blue
B	213	6	Ignition Timing - Weber Conversion	Static and dynamic timing data
B	214	6	Ignition Timing 123 Distributors	Types and timing setting
B	216	8	Cartridge Oil Filters Timing Chain	Specification and types
B	217	9	Tensioner	Good originals; poor replacements
B	217	9	Engine Breather	Types; how they work
B	218	8	Camshafts	Types and specifications SI-V
B	219	5	Oil Thrower Cylinder Head Stud	Different types and O ring
B	220	7	Stuck	Desperate measures
C	175	28	Fuel tank paint	Replacing flaking internal paint and re-sealing
C	185	29	Unleaded fuel effects	Valve seat recession
C	187	14	Throttle link bushes	Dimensions and reproduction
C	194	11	Ethanol fuel	Ethanol effects on tanks, carburettors, pumps and pipes
C	195	11	Ethanol update	Additives and sealants. Vapourisation
C	197	10	Ethanol	Rubber and plastic pipes etc

			Ethanol and Slosh	
C	198	8	Tank	Good and bad types
C	200	7	Ethanol	FBHVC additive test results
C	200	7	Poor running issues	A resume of recent issues
C	202	4	Fuel pump fire risk	Electric pump considerations
C	204	4	Ethanol	E10 threat
C	210		Ethanol	Effects, E5 and E10
			S3-V Fuel Transfer	
C	212	9	Pipe	Brief note about connector size change
			Fuel Smells in the	
C	217	10	Boot	Possible causes
C	218	8	Throttle Rod Grommet	A VW alternative
D	195	12	Clutch bleeding	Techniques
D	208	4	Clutch issues	Incompatible plates and covers
D	213	5	SV Clutches	Types and problems
E	183	36	Gearbox removal	On its own, on your own
E	199	20	Gearbox and overdrive	Facts, by Series
			S3-V OD Relay -	
E	215	7	again	+ve earth cars and how to make the mod hidden
E	219	5	Gearbox Leaks	Possible fixes
F	185	28	Caster control wedges	Dimensions
			Front suspension	
F	187	15	bushes	Replacement - or not
F	190	28	Front springs	Dimensional data, by Series
F	191	24	Front springs	Further dimensional data
F	193	34	Front springs	Corrected full dimensional data
			SIV-V Wishbon Bush	
F	220	7	Replacement	Don't unless absolutely necessary
G	181	36	Hubs and pullers	Rear axle tools
G	187	14	Crownwheel setscrews	Loose lock washers
G	204	4	Crownwheel setscrews	Replacement and tightening/locking
G	204	4	Wire wheel rear hub	Interchangeability by Series
			Half-shaft outer	
G	205	5	bearing	Remove and replace
G	216	8	Rear Axle Breather	Note about leaks
G	219	7	Rear Axle Tools	Design
H	190	29	Rear springs	Dimensional data, by Series
H	204	5	Rear spring	Data for late S3 to SV
J	203	4	Steering alignment	By Laser for £1.88 (plus batteries)
J	205	4	Steering part names	Differences
			Steering cross-rod	
J	209	4	bushes	Modern replacement issues
K	195	11	Brake caliper rattles	Anti-rattle spring
K	197	11	Brake servo hose	Poor quality spares
K	207	9	Lockheed brake servo	Fitting

K	208	5	Lockheed brake servo	Fitting update
			Servo Problems and	
K	212	7	types	All the types and sizes
K	215	8	Brakes	Pipe material; possible dual master cylinders
L	208	5	Tyre pressures	Suggestions
L	209	5	Wheel size and offsets	Dimensions
			Gearing and	
N	180	33	speedometers	Effect of tyres and ratios
N	180	32	Wiring	General introduction and SV diagram
N	182	36	Tachometers	Electrical circuits
N	183	37	Wiring loom sleeving	How to re-use
N	184	25	Wiper drive	Restoration and lubrication
N	187	15	Central locking	Kit found for £40
N	189	14	Starter motor	Warning about poor spares
N	192	24	Overdrive relay, S3-V	Functional explanation
			Alternator warning	
N	195	12	light	Controller description
			Alternator warning	
N	196	10	light	Repair of controller
N	199	19	Wiring	Overdrive schemes, Car wiring book
N	202	4	Electrics & wiring	Basic schematic
N	207	7	Coils	Lucas types
N	207	7	Overdrive relay, S3-V	Adaptation of a modern simple relay
N	209	5	Flasher buzzer	How to fit one
N	209	4	Instrument lights	Brighter types
N	213	5	Clocks	Fixes and alternatives
N	213	5	Hazard Flashers	How to wire in a system
			3AW Alternator WL	
N	215	7	Controller	Modern components in the old casing
N	216	8	Radios	Makes, types, housings, FM conversions
			Rear Lamp Bulb	
N	216	9	Holders	Types and modifying
N	217	11	SI/II Tacho Drive	Drive gear ratio
N	218	9	LED Bulbs	Basic facts. White/amber bulb for SI-3
			Pulsing SV Ignition	
N	219	5	WL	An old problem and solution
N	219	6	Reversing Lights	Factory and accessory types
N	220	6	S3-V Indicator Switch	Rebuild instructions and photos
			Gear lever grommet	
O	175	30	SV	Converting the early grommet
O	175	29	Window lift channels	Rust and replacement
			Seat Belts - Inertia	
O	181	36	type	What to fit, how to fit
O	183	37	Hood/screen catches	Lubrication needed
O	184	24	Dashboard	Removal and refitting

O	186	36	Window winders	Removal, refitting and adjustment
O	188	14	Alpine wing scripts	Repair
O	191	24	S3-V Hardtop	Dimensions for repair. Storage design
O	195	12	Paint matching	For re-touching
O	199	17	Paint colours - wheels, manifolds	Original colours
O	202	4	Bonnet release	Fit a standby cable NOW
O	202	5	Hardtop rear window	Fitting
O	202	5	Key codes	Numbers used in Alpines, by Series
O	214	6	Black-Painted Areas Seat and Pedal	What Rootes painted matt black (air intake etc.)
O	217	11	Adjustment	S3-V adjustments
O	218	8	Bakelite Polish
